We started this health Care Community to stop the threat of the on going Gobal Pendentic.

Soon as we open our social networks(Twitter-facebook), we see with growing concern that a strange disease, whose name seems apocalyptic, is threatening our society. I needed to act in my own way to help the families, seniors, medical professionals from around the world.

The problem is serious; the Coronavirus has been cataloged as a global pandemic. In a few months it has spread to several countries and, thanks to globalization, the virus is felt in almost every corner of the world.

So, we as humans must ACT Now!
